When We Save Together!

Revolutionizing Community Finance with DeFi

piltonet.com

Familiar Traditions, New Needs

For centuries, Lending Circles have been a cornerstone of financial support in trusted communities. These traditional practices, deeply rooted in cultural heritage, have provided a communal approach to saving and lending. In countries around the world, Trusted Lending Circles have a variety of different names such as: susus (Ghana/Caribbean Islands), tandas (Latin America), hui (East Asia), chit funds (India), cundinas (Mexico), etc...

Web3 is Going Just Great

With the emergence of the web3, we are heading towards one of the transformations that will change how finance is conducted nowadays.

Piltonet's vision is to transform conventional lending circle into a Flexible and User-friendly digital platform with Minimal Overheads that meets the unique financial demands of today's smart generation.

Unique Features

- **Identity:** Utilizing Token Bound Accounts (ERC-6551) to ensure secure and verified participant identity.
- **Trust:** Enhancing trust by transferring account-owned NFTs within a trusted network.

Unique Features

- Token: Introducing PCUSD as a local stablecoin (VRC25 standard), pegged 1:1 to CUSD
- Web3 Lending Circle: Using social capital, trust networks and blockchain technology to develop a decentralized financial system that aligns the interests of all participants.

Innovative DeFi Solutions with Lending Circles

Piltonet's lending circles represent a significant leap in DeFi solutions, offering a practical and community-oriented approach to finance. It's not just a platform; it's a movement towards a more inclusive and decentralized financial future.
